HUNTER 30

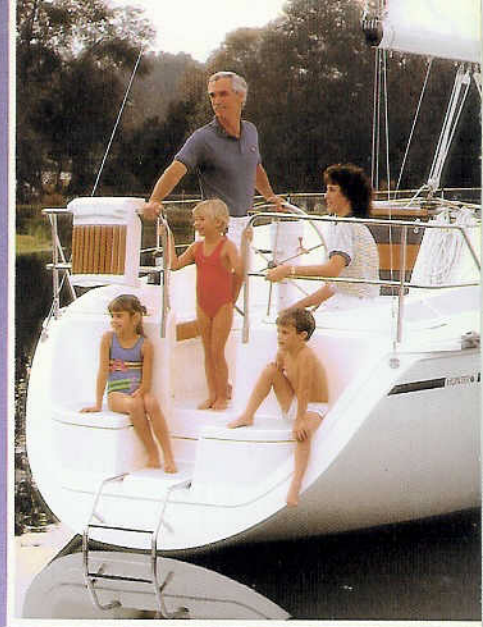

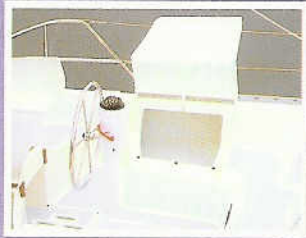

We go the Distance

Unexpected Features

Just look at all the features. The newly designed Hunter 30 is loaded with popular features found on our larger boats such as the anodized aluminum toe rail, grid system construction, and deep T-shaped cockpit plus five cockpit lockers. You'll appreciate the large volume interior, thick teak fiddles and moldings, cedar lined lockers and the unique swivel dinette which allows versatile use of space in the main salon.

Removing the arched helm seat in the cockpit opens an innovative walk-through transom with storage lockers, steps, and an integrated swim platform making swimming, diving and snorkeling easy for your whole family. With the helm seat in place and the swim ladder raised, the cockpit returns to its full enclosure. You'll feel at ease at the helm equipped with pedestal steering and engine controls with lighted compass.

Comfortable Cruising

The new Hunter 30 is the most livable sailboat in the 30' market—bringing you comfort on the water. You'll enjoy the openness of the cabin with plenty of ports and hatches to let in natural light and fresh sea breezes. As you step into the main salon you'll appreciate the beauty of the teak and holly sole and hand-finished teak woodwork. And dining at sea is easy with the convenience of an L-shaped galley fully equipped with a gimbaled two-burner stove and oven, large ice box, and double stainless steel sinks with hot and cold pressure water.

Relaxing below deck is comfortable for the whole family. Her interior features an athwartships double berth aft, plus a fully enclosed head with pressurized shower and molded vanity with mirror. The convertible dinette expands comfortable sleeping for up to seven.— You'll also appreciate easily accessible lockers with enough room to store all your gear.

Unmatched Value

Make an investment you can be proud of. You'll get the best price and value available today and reliable sailing for years to come. With Hunter you get a company with the resources and the experience to stand behind its customers—and we do! By purchasing a tremendous volume of quality materials and using highly efficient production line techniques, Hunter's cost for materials and labor to build a quality boat are held to a minimum. These advantages allow Hunter to avoid the high prices charged by competitors without sacrificing quality and without passing unnecessary costs on to you. No other sailboat manufacturer can give you the unique features and quality of the Hunter 30 at a more affordable price.
